Project Title: Garden Gnome Liberation

I'd like to build this site as multiple pages, rather than a long, single page website. Typical site navigation probably across the top, however I think I would like to have navigation be spread at the bottom with clickable, moving gnome images to traverse the site. I think there is plenty of content and photography to build out individual pages, I will probably also take information from the Garden Gnome page as well

- **Home Page/Introduction** – Introduce basic premise of Garden Gnome liberation, describe gnomes.
- **Garden gnome general information**
- **traveling gnome as a prank**
- **gnoming as theft**
- **Garden Gnome Liberation front or** Front de libération des nains de jardin
- **In pop culture**
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
